The Washington Hemp Education Network (W.H.E.N.) is an organization working to educate the people of Washington State to make more informed choices about the regulation of hemp. We are a community of volunteer hemp activists providing verifiable information on cannabis. We counteract misinformation, and work to change cannabis laws that harm all Americans and their environment.

Organizations and Non-profit booths encouraged. Hemp booths welcome (no selling).

For more information please contact Eve Lentz at eve@hemp.net
or contact W.H.E.N. at (360) 866-6523 or <http://www.olywa.net/when>
